IN THE MATTER OF THE APPROVAL OF )  
THE NOTICE OF INTENT AND RECLAMATION )  
PLAN SUBMITTED BY UNION CARBIDE CORP.)  
WILSON - SILVERBELL MINE, )  
SAN JUAN COUNTY, UTAH )

---

ORDER TO SHOW CAUSE  
No. ACT/037/027

THE STATE OF UTAH TO ALL OPERATORS TAKERS OF PRODUCTION,  
MINERALS AND ROYALTY OWNERS, AND PARTICULARLY ALL PERSONS INTERESTED IN  
TOWNSHIP 32 SOUTH, RANGE 26 EAST, SLBM, SAN JUAN COUNTY, UTAH.

Notice is hereby given that tentative approval was given by  
the Utah Division of Oil, Gas, and Mining, on December 21, 1978 to  
Union Carbide Corp., P.O. Box 1029, Grand Junction, Colorado 81501 to  
commence underground random room and pillar, trackless, double shaft  
entry, uranium mining operations on portions of Sections 15, 21, and 26,  
Township 32 South, Range 26 East, San Juan County, Utah. The name of  
the mine is the Wilson - Silverbell Mine, and the person representing  
the company in this matter is Mr. Mel Pembbridge, Union Carbide Corp.,  
P.O. Box 1029, Grand Junction, Colorado 81501.

Union Carbide Corp. has fulfilled obligations under the Mined Land  
Reclamation Act of 1975 (Section 40-8, U.C.A., 1953, as amended), and  
will employ the following reclamation techniques on approximately 10  
acres of Leases and Leased claims.

During Operations:

- 1) Mining will be conducted in a safe, sound technical  
and prudent miner-like manner.
- 2) Future site expansion will salvage topsoil in advance  
of development and it will be stored in stabilized  
and revegetated stockpiles.
- 3) New access roads will be constructed in a manner  
agreeable to the surface owners and to allow for  
proper drainage.
- 4) Revegetation tests will be employed.

After Operations:

- 1) Surface debris, scrap metal, discarded wood, and unuseable buildings will be buried or removed from the site.
- 2) Portals, shafts, and ventilation holes will be sealed to prevent unauthorized or accidental entry.
- 3) Dumps, pads and other disturbed sites will be stabilized by rounding off outer edges, reducing the slope of the rock faces and regrading drainage contours.
- 4) Compacted surfaces will be scarified, seeded with a grass-shrub seed mixture in the fall, and drag covered.
- 5) Water evaporation ponds will be reclaimed.
- 6) The main road through the site will be left open for access.
- 7) Reclaimed areas will be monitored and reseeded if necessary.

Reclamation performance surety will be established upon final approval of the mining and reclamation plan.

Any person or agency aggrieved by this tentative decision is hereby requested to submit written protest within 30 days of December 21, 1978, to the Division of Oil, Gas, and Mining, 1588 West North Temple, Salt Lake City, Utah, setting forth factual reasons for his complaint, and thereafter, at a time and place heretobe established, appear before the Board of Oil, Gas, and Mining, to show cause, if any there be, why this plan should not be approved.

DATED this 21st day of December, 1978.

STATE OF UTAH

BOARD OF OIL, GAS, AND MINING
